

Venus®

The new aesthetics.

The Venus brand and the corresponding products are designed to provide a complete aesthetic, clinical solution for every challenge in the dental office. With this third edition of the Venus Masters Newsletter, we would like to introduce a new member of the Venus family:  
The new Venus Supra diamond polishing system.

### Venus® Supra - Long-lasting, high gloss polishers

With the new Venus Supra silicone polishers, which are highly filled with microfine diamond powder, you will achieve long-lasting, high gloss polishing for every composite restoration in only two steps >>>

### Venus® Supra - Frequently asked questions

Do you want to know everything about the new polishing system from Heraeus Kulzer? What are the advantages of using Venus Supra, how are the polishers used, or what has to be done to achieve the best polishing results? Take a look at the FAQ list and get the answers to all your questions.

▶ [more ...](#)

### Interactive zone - Design your restoration online

What better way to experience than experimenting things yourself? On the new "interactive zone" of Venus Masters you can experiment with practical examples of the application of Venus composites online and interactively.

▶ [more ...](#)

With the Venus Masters Newsletter, we hope to provide you with current and practical information. Click on "[contact](#)" and send us further topics that would be interesting for you and those that we should include in our newsletter in the future. Your opinion is important for us.

With best regards

Your Heraeus Team
